What is Twist™?

Silente Twist™ range is a high sound absorbing flexible suspended ceiling panel designed to control echo and reverberation which creates an aesthetically pleasing quiet place for employees. Our Silente Twist™ flexible ceiling panel improve the quality of the environment due to the products ability to absorb echo and reverberation around the work environment.

Silente Twist™ ceiling panel core material is a compressed polyester manufactured using post-consumer recycled polyester from plastic bottles. Our ceiling panels have been designed to a very specific density to achieve the correct acoustic performance and are available in 12mm thickness and in 22 different colours.
