What is V Groove Wall Panel?

Silente V Groove™ range is a high sound absorbing wall panel designed to control echo and reverberation which creates a quiet space for employees.

Our Silente V Groove™ wall panel absorbs sound to eliminate echo and reverberation around the working environment. Silente V Groove™ wall panel core material is a compressed polyester manufactured using post-consumer recycled polyester from plastic bottles.

Our V Groove panels have been designed to a very specific density to achieve the correct acoustic performance and are available in 12mm thickness and in 22 different colours.
